Level of Accommodations (Level One, Two or Three)

Level Three

If Level Two or Three, please provide rationale for not meeting Level One Compliance: <u>Providing a higher level of accessibility compliance is too costly for the size of the student enrollment in this curriculum area.</u>

FEATURES*

*DISCLAIMER: The features of each book or program were developed by the publisher and do not reflect the opinion of the State Textbook/Instructional Materials Review Team, State Textbook Commission, or the Kentucky Department of Education.

Content

Automotive Excellence, Volume 2, presents the concepts and content of an automotive course preparing technicians to pass ASE Certification tests. Automotive Excellence is correlated to both the Technical and Academic NATEF Standards. Volume 2 content includes Engine Repair, Heating & Air Conditioning, Automatic Transmission & Transaxle, and Manual Drive Train and Axles.

Student Experiences

Automotive Excellence is designed to help students of varying ability levels develop their technician skills. The concise lesson narrative, clearly defined topic headings, line drawing and photos help students bridge the gap between abstract and concrete. Students will be interested and actively involved in diagnostic problem solving and applying their skills using Job Sheets. The text features, Mathematics (Science and Communication) offer opportunity for students to learn and apply Academic NATEF Standards. Knowledge Check after each Section allows students to gauge their own mastery of lesson content.

<u>Assessment</u>

Automotive Excellence includes a variety of assessment instruments to support instruction. Each Section ends with Knowledge check for student self-assessment. Each Chapter ends with Review where students answer objective and critical thinking questions. Every Chapter also ends with a 10 question Test Prep, similar to the ASE certification test. The instructor has more formal testing tools, both Chapter Tests in the Instructor Resource Guide, and ExamView® test generator on the Instructor Productivity CD-ROM. Both instructor and student obviously have one other assessment tool: whether or not they can diagnose an auto problem and repair it.

Organization

Each volume of *Automotive Excellence* contains 5 Parts: the Handbook including The Automotive Industry, Automotive Safety Practices, and Automotive Tools and Equipment; and the 4 automotive systems, each in its own Chapter. Each Chapter/automotive system has clearly defined You'll Be Able To:, Terms to Know, and The Problem>Your Challenge, an opportunity for students to diagnose a problem. Each Section within a Chapter ends with a Knowledge Check. Features like Safety First and Tech Tip add interest. The Chapters end with Review, Workplace Know-How and an ASE Test Prep. Each Chapter is color-coded, self-contained, with numeration of pages within the system also self-contained. A complete Glossary and Index complete the volume.

RESEARCH DATA/EVIDENCE OF EFFECTIVENESS**

**DISCLAIMER: The Research Data/Evidence of Effectiveness was provided by the publisher and do not reflect the opinion of the State Textbook/Instructional Materials Review Team, State Textbook Commission, or the Kentucky Department of Education.

Research Data

These student texts are the key components in the only automotive program specifically designed to address both the technical and academic standards defined by the National Automotive Technicians Education Foundation (NATEF). This is the organization that oversees ASE (Automotive Service Excellence) certification. While the NATEF standards provided the standards structure for the program, the focus and depth of coverage was determined by a carefully selected team of award-winning secondary and post-secondary automotive instructors. Research was intense, consisting of face-to-face meetings between editors and the automotive instructors to determine subject breadth and detail. The writers, accomplished automotive writers with deep knowledge of their specialized subject areas, conducted their own verifying research. The instructors reviewed the manuscript at key stages to assess the accuracy of the information presented in the text ad the graphics.

Rating Scale:	3 – Some potential for learning	1 - Not present
4 – High potential for learning	2 – Little potential for learning	0 – Not applicable

Organization and Structure	Rating
Organization is logical and allows for spiraling of content.	4
Vocabulary and key terms are clearly defined and easily accessible within each lesson.	4
Visual illustrations (e.g. graphs, charts, models) and examples are clearly presented and content-related.	4
Illustrations and language reflect diversity (e.g. racial, ethnic, cultural, age, gender, disabilities).	3
Legible type, length of lines, spacing, and page layout and width of margins contribute to overall appearance and use.	4
Student materials seem durable and conducive to daily use.	4
Includes sufficient glossary, index and appendices.	4
Employs accurate grammar and spelling	4
Organization of material can be effectively used with Standards Based Units, Core Content and Program of Studies.	4
